Erasmus+

The project

The **M.IN.D - Marketing, Internationalization & Development** project aims to:

- **create a stable, European network** between institutional, economic and training actors to analyse, design, test, validate and disseminate a European framework to qualify an «**International Marketing Manager**» vocational profile. The profile defined with the contribution of the partnership, will be articulated in competences, named and describing knowledge and capacities/abilities and will indicate the relative EQF of the result expected and contain indicators to identify possession/exercise of a set of distinctive skills to:
 - a) support SMEs in internationalisation processes
 - b) analyse the internal and external resources of the enterprise to identify market opportunities and relative strategies to adopt
 - c) define international marketing strategies
 - d) guiding SMEs in defining export plans
- **validate and diffuse training standards and the didactic framework developed in the MIND project**
- **increase digital integration in learning**, favouring access to a plurality of open educational resources to access via the Open Educational Resources (OER) created with visual thinking techniques with the help of 2D/3D animations and games

The **expected results** of the project are:

1. **the constitution of a stable, multi-actor transnational network**
2. **undertaking of a cognitive analysis** on a sample of SMEs that belong to the agro-food sector, with particular reference to SMEs interested in international development of the business, expression of the partner economic systems, focusing on human, financial and technical resources
3. **creation**, via network socialisation spaces, **of opportunities for networking**, to aggregate ideas, experience, skills in the common design of a set of skills in the field of business internationalisation
4. **creation of the “MAR.CO Marketing Competencies”** learning environment adopting training solutions in line with the evolution of technologies and multimedia languages, not confined to places and set times, leading to forms of **social/collaborative learning**.

The project

5. **involvement of a group of 100 people (30IT, 30ES, 15GR, 15TK, 10FR) in the testing of the “MARK. UP- Marketing Upskilling”** multimedia product, structured in OER to develop the set of distinctive skills of an organisational/management, commercial, relational and marketing nature, functional to define a correct and sustainable strategic plan for the international projection of small and medium enterprises
6. **creation of MIND STORY**, a cross-media digital book to narrate the behind the scenes, the highlights, the stories, the people and participants' experience
7. **identification of opportunities foreseen by regional, national and community calls**, to implement and transfer the project results to new contexts/territories.

INTELLECTUAL OUTPUT:

1. Competence needs analysis
2. Elaboration, design and creation of OER that constitute the MARK.UP- Marketing Upskilling multimedia product
3. Design and creation of the “MAR.CO - Marketing Competencies” learning environment and search for support tools for enterprises
4. Testing of the OER, the teaching material and internationalisation support tools
5. Implementation of a Company Check-up
6. Design, creation and implementation of “MIND STORY”.

The partnership
